Zivieh Stepped Garden Tower

A residential and commercial design in Saqqez uses stepped setbacks to create planted terraces and reduce the apparent mass of the tower. Outdoor spaces look toward the city and river, while a clear ground-level base connects the building with public life.

LOCATION

Saqqez, Kurdistan, Iran

DESIGN YEAR

2026

Saqquez Autism Center

The design brings care, treatment, education and residential support together on donated land near Saqqez. Guided by the ASPECTSS framework, it responds to Kurdish building traditions, topography and climate through sheltered courtyards, gradual transitions and curved spaces intended to support a calm spatial experience.

LOCATION

Saqquez, Kurdistan, Iran

Wave House

A first-prize modular housing design in Lithuania translates the curves of water and landscape into a repeatable dwelling. An expandable arc-shaped module and central service core organize flexible living space, with proposed rain and snow collection, water treatment and solar energy systems.

Parand Train Station

This station proposal for Parand New Town reinterprets Iranian arches and vaults through a contemporary curved envelope. A repeated facade rhythm gives the building a clear identity along the rail corridor, while passenger routes are organized alongside places for waiting and rest.

LOCATION

Parand New Town, Tehran, Iran

Mahabad Engineering Organization Building

The office design combines a brick frame with a central vertical void that divides the mass into two wings. The void connects the entrance, lobby, circulation and shared terraces, while lattice screens and planted balconies mediate light, views and open space.

LOCATION

Mahabad, West Azerbaijan, Iran

Opera Bridge

A pedestrian-bridge proposal in Moganshan, China draws on the curves of historic Chinese architecture. Two folded surfaces, one rising toward the sky and one bending toward the ground, define the structural idea and sheltered places to pause, turning a crossing into a setting for rest and landscape views.

LOCATION

Moganshan, China
